

Dear Community Partner,

We are reaching out on behalf of Suncoast Voices for Children, a 501c3 nonprofit dedicated to supporting abused, neglected, and abandoned children involved in the child welfare system in Pinellas and Pasco counties.

Unlike many organizations, we do not receive any state or federal funding. Everything we provide, from basic needs like clothing and beds to life-enhancing support and experiences, is made possible through the generosity of individuals and local businesses. That's why community partners are so important to us.

We believe strong communities are built when businesses, individuals, and organizations come together to support the most vulnerable among us and we'd love to explore how we might connect with your team as a community partner.

We'd love the opportunity to introduce our work to you and explore how your business might get involved. Whether it's through a donation drive, awareness campaign, or another form of support, there are many ways we can work together to make a real impact for kids in our area.

If you'd be open to a short meeting or phone call, we'd be happy to coordinate the time that works for you. You can reach us directly at the contact information below.

Thank you for considering this connection. We truly value the role of local businesses in helping us be a consistent voice for vulnerable children in our community.

Warmly,

Wendy Woolley
